

CHECK OUT A NEW E-LEARNING PROGRAMME ON SUSTAINABLE FOREST MANAGEMENT

This innovative programme is one of the kind in Austria, Croatia and Slovenia and is developed collaboratively by forest researchers and practitioners, as well as experts on adult education.

**THE PROGRAMME IS
TAILOR-MADE FOR
FORESTRY PROFESSIONALS,
PRIVATE FOREST OWNERS,
NATURE CONSERVATIONISTS
AND
FORESTRY ENTREPRENEURS.**

The programme is
freely available on
www.cia2sfm.org.

SUSTAINABLE FOREST MANAGEMENT: FROM THEORY TO PRACTICE

All you need is a
laptop/tablet
/smartphone and internet
access.

Benefits for users

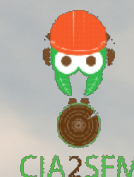

Forestry professionals can find expert terminology in four languages (EN, CRO, SLO, DE), learn how to adapt to the climatically changing environment, see case studies and examples from neighboring countries...

Private forest owners (PFO) have a possibility for interaction with other PFOs (forum/chat), can find practical advice, cooperation and funding possibilities...

Nature conservationists can get an insight in forest protection from a different perspective, find alternative ways of communication and knowledge transfer and find possibilities for EU funding...

Forest entrepreneurs can find practical examples and movies about forest exploitation and use of different tools, basic knowledge on forest ecosystems and forestry, as well as practical steps toward becoming forest reproductive material supplier...

The programme is intended for
the general public!

Co-funded by the Erasmus+ Programme of the European Union. Responsibility for the information and views set out in this brochure lies entirely with the authors, and not with the Agency for Mobility and EU Programmes or European Commission.
